PROFILE

Highly motivated and enthusiastic Computer Information Systems student with a powerhouse foundational background in computer science, enterprise governance, and systems logic. Passionate about leveraging rigorous academic training to excel as an IT Assistant at Friendship Bench. While I am an entry-level professional, I actively bridge the experience gap with a relentless work ethic, meticulous technical research capabilities, and an unyielding commitment to service excellence. Fast learner, highly adaptable, and eager to ensure optimal ICT uptime, data security, and seamless support across all administrative operations.

ACADEMIC & PROJECT EXPERIENCE

ICT Systems & Support Academic Training

Aug 2025 - Present

Africa University • B.Sc. Computer Information Systems

- Acquired hands-on full-stack development and modern scripting competencies utilizing Python, C++, and C# for automated process execution.
- Mastered structured data architecture and database administration using SQL tools to support secure information management, storage, and retrieval.
- Developed strict problem-solving logic applied to network engineering principles, system analysis, and cross-functional team collaborations.

Enterprise IT Governance Research Project

Nov 2025 - Present

Independent Study & Certification Alignment

- Conducted deep-dive structural research on the COBIT Framework for Enterprise Governance of IT, focusing on separating governance (evaluate, direct, monitor) from management (plan, build, run).
- Evaluated models to align business goals perfectly with technical infrastructures while managing structural risks, data security compliance, and asset life-cycles.

KEY SKILLS

- • User Support & Helpdesk Readiness
- • Operating Systems & Core Networking
- • Database Management (SQL)
- • Scripting & Programming (Python, C++, C#)
- • IT Governance & Compliance Awareness
- • Meticulous Technical Research
- • Relentless Work Ethic & Problem-Solving
- • Advanced Microsoft Office Suite Mastery

EDUCATION

B.Sc. in Computer Information Systems (Ongoing)

Expected Graduation 2029

Africa University, Harare, Zimbabwe

Advanced Level (A-Level)

Jan 2022 - Nov 2024

Nattie College, Harare, Zimbabwe

Passes in Computer Science (Hardware & Systems), Physics (Mathematical Logic), and Geography (Spatial Systems/ Mapping).

Ordinary Level (O-Level)

Jan 2018 - Nov 2021

Milestone College, Rusape, Zimbabwe

10 O-Level Passes including Mathematics, English in the First Language, Computer Science, and Physics.
